

POSITION ANNOUNCEMENT

Neuroscience Assistant Professor (Research)

Job Site: Universidad Central del Caribe School of Medicine (UCC)
<http://www.uccaribe.edu>

Position Description: The newly hired faculty will participate in the UCC research program in the area of presynaptic mechanisms sponsored by NIH/NINDS Specialized Neuroscience Research Program. The salary is competitive and compatible with the experience.

Qualifications: The successful candidate will have a Ph.D., 2-7 years of postdoctoral experience, strong publication record, and previous research experience in the field of synaptic transmission. Candidates with a background in molecular biology or computational neuroscience are especially encouraged to apply.

Location: Bayamón, Puerto Rico (United States)

About UCC: The Universidad Central del Caribe was founded in 1976, as a private non-profit institution. The University is composed of the School of Medicine, the Graduate Program in the Biomedical Sciences, the Radiologic Technology Program and the Substance Abuse Counseling Program. The University is accredited by the Liaison Committee on Medical Education (LCME), the Accreditation Council for Graduate Medical Education (ACGME), the Joint Review Committee on Education in Radiologic Technology (JRCERT), the Middle States Commission on Higher Education (MSCHE) and the Puerto Rico Council on Higher Education (PRCHE). The University has a solid background in research activities in the areas of neuroscience, immunology, virology, substance abuse and cellular and molecular biology.

Application: Evaluation will start immediately and continue until the position is filled. Please submit you CV and names and addresses of 2-4 references by e-mail to Maria Bykhovskaia, mb.ucdelcaribe@gmail.com

UCC is an equal opportunity employer.
